

TrainRDM – Open Science and Research Data Management Innovative and Distributed Training Programme (2020-2023)

Financial Agreement no. 2020-1-RO01-KA203-080170

TrainRDM project aims to empower the Education and Skills dimension of OS in general through exploring innovative mechanisms and tools to provide the skills training, in particular for Research Data Management (RDM) good practices.

The project objectives are:

- To analyze and map the skills training needs for OS and RDM in existing curricula in partner HEIs taking into account the different OS dimensions, target groups and level of existing knowledge;
- To review existing good practice in OS and RDM skills training;
- To develop a OS and RDM Training Methodological Toolkit;
- To develop, validate and diffuse a quality pilot training programme for OS and RDM;
- To develop a training network around OS and RDM concepts;
- To encourage, motivate, support and recognise staff and students skills development in OS and RDM.

The specific aims are divided on project target groups, centered around MSc & PhD Students, Early Stage Researchers (ESR), Trainers, and Research Community Stakeholders in general.

The following intellectual outputs, learning/teaching/training activities and multiplier events are to be developed/organized during the project lifetime:

Intellectual Outputs:

- IO1: OS & RDM Training Methodological Toolkit
- IO2: Joint Design of Training Programme on OS and RDM
- IO3: Distributed eLearning Training Platform for OS and RDM.

Learning/Teaching/Training Activities:

- LTTA C1: Train the Trainers Winter Week
- LTTA C2: Students Summer School
- LTTA C3: Early Stage Researchers Training Week

The TrainRDM Consortium integrates six partners with relevant expertise in open science training with special regards to research data management: [University Politehnica of Bucharest](#) (RO) - coordinator, [Technische Universitaet Wien](#) (AT), [National College of Ireland](#) (IE), [DTSL - Technology Ireland ICT Skillnet](#) (IE), [Universita Degli Studi di Roma La Sapienza](#) (IT) and [Institutul National de Cercetare-Dezvoltare in Informatica ICI Bucuresti](#) (RO).

Project manager: Dana GHEORGHE
